(FORMERLY WITH A. H. RODIERIS & SON.)

It is a plan by which a man can become to his family the ceites of six life, and thereby precent them from being latt in poverty and without the means of support when deprived of his pretection. The average duration of a clear of lifes is certain, it ere is no certainty of the duration of one life. A life insurance company takes advantage of the certainty of the average, and gives it to extry one of the members. The Connecticut Mutual Life Ins Co offers a contract based upon a three per cent. reserve, and that other can be within me as taked loterrals.
